## Biology 1040 Organismal Biology Lab Fall Semester 2020 Biology Department, College of Arts and Sciences Valdosta State University

Instructor: Mr. Christopher Le Office: Science Building 2025 Office Hours: By appointment (Send email) Phone: Biology Dept. Main Office 333-5759 E-mail: <u>chle@valdosta.edu</u> Room: Science Building 1046

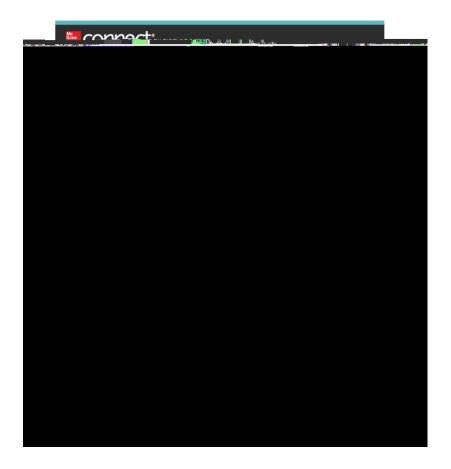

**Co-requisite: Bio 1030.** This course cannot be taken for credit toward the major in biology. A laborato accompany Bio 1030 lecture, emphasizing the structure of multicellular organisms.

### **Course Objectives**

: This course is designed to accompany Bio 1030 by presenting exercises that emphasize the processes involved in the development and maintenance of multicellular organisms. The objective of this course is to provide students with a hands-on experience in general biology. Students will participate in the process of scientific inquiry by asking scientific questions, developing hypotheses, predicting outcomes of experiments, collecting and interpreting data and drawing conclusions from the results.

**Learning Goal**: Students will demonstrate understanding of the physical universe and the nature of science, and they will use scientific methods and/or mathematical reasoning and concepts to solve problems.

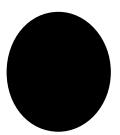

<u>Materials</u>: McGraw Hill Connect Online Labs. This can be purchased directly through the company (less expensive) following the directions below or an access card can be purchased through the bookstore.
