Ity and students. Faculty members should promote academic integrity by including clear instruction on the components of academic integrity and clearly defining the penalties for cheating and plagiarism in their course syllabi. Students are responsible for knowing and abiding by the Academic Integrity Policy as

Classroom demeanor or conduct: Every student should make the lecture a comfortable and enjoyable learning experience. Late entry to the class room or leaving early is bad behavior. Common sense should be practiced and expected.

Communication: All VSU-related correspondence should be conducted via VSU email addresses for both student and instructor and via the Blazeview.

Title IX Statement

Valdosta State University (VSU) upholds all applicable laws and policies regarding discrimination on the basis of race, color, sex (including sexual harassment and pregnancy), sexual orientation, gender identity or expression, national origin, religion, age, veteran status, political affiliation, or disability. The University prohibits specific forms of behavior that violate Title IX of the Education Amendments of 1972. Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex in education programs and activities that receive federal funding. VSU considers sex discrimination in any form to be a serious offense. Title IX refers to all forms of sex discrimination committed against others, including but not limited to: sexual harassment, sexual assault, sexual misconduct, and sexual violence by other employees, students or third parties and gender inequity or unfair treat

sex/gender. The designated Title IX Coordinator for VSU is Mr. Darius Thomas. To view the full policy or to report an incident visit: <u>https://www.valdosta.edu/administration/student-affairs/title-ix/</u>

9. Additional Information

Expectations for competencies such as writing, technology skills, or performance: Students should be able to describe immunological phenomena at the molecular or cellular levels in terms of physics and chemistry.

Instructional philosophy: I believe reading one book ten times is better than reading ten books one time. This is the case for this course.

Strategies used to support learning: Students should take advantage of my office hours. Studying as a group (study group) should be a good idea.

I will teach and you will learn immunology in this course. Therefore, your intellectual enhancement from this course will depend on both of us. Would you have any other ideas?
